

PROFESSORS

Each year professors have the opportunity to apply for an individual pay review or, where applicable, for promotion to a higher band. For more information, see:

- [Professorial pay reviews](#)
- [Academic promotions](#)

Band 1

Professorial Band 1 has been updated to reflect the removal of the bar between sections 1-1 and 1-2 which required a successful Professorial Promotion application.

We have also compared our spine points to the market rates for Professors at this level and made some changes to keep us aligned.

The current rates are:

Spine Point	Rate effective from August 2025
1	£78,798
2	£81,126
3	£83,451
4	£85,778
5	£88,107
6	£90,434

Professors will increment up the scale annually until they reach spine point 6.

Band 2

Individual spot salaries within the band minimum and maximum:

	Rate effective from August 2025
Minimum	£90,434
Maximum	£116,940

Band 3

Individual spot salaries at or above the band minimum:

	Rate effective from August 2025
Minimum	£113,959

All professorial scales are adjusted in line with the national pay award.
