RLW = Real Living Wage

See separate page for [Apprentice](#) rates

Employees normally progress by one spinal point each year until they reach the highest point in the grade.

The University is not using Points: 1 to 8, 28, 30, 32 or 48.

Grade 9 Pay Spine

Detailed Grade 9 Pay Spine below.

Spinal points at grade 9 start at 100 and continue beyond spinal point 140 following the same incremental amount followed by previous spinal points.

At Grade 9, staff will not receive automatic increments. Progression on the Grade 9 pay spine will consider performance/contribution as part of the SLRS outcomes.
